## TK-7360(H)/8360(H)

VHF/UHF Compact FM Mobile Radios

FleetSync®  
by KENWOOD

GPS

Kenwood's new TK-7360/8360 offers extra wideband coverage (UHF: 70MHz) and a wealth of user-friendly features. The bright 10-character, 13-segment LCD clearly displays all essential information, including status messages, ID and GPS info. Also available are 10 programmable function keys, QT/DQT signaling and multiple scan functions to ensure superb performance 24/7.

### 128 CHANNELS, 128 ZONES

The TK-7360/8360 offers ample channel/zone capacity to enable a large organization to manage a wide range of different operations efficiently.

### ENHANCED KENWOOD AUDIO

Clear audio means confident communications, but power output is not the only factor that determines how easy it is to use a radio in varying noisy environments. As an audio specialist experienced in psychoacoustics, Kenwood can draw on decades of expertise at every step: component selection, construction, optimization, evaluation and analysis. The resulting audio performance – specially engineered for transceivers and with frequency response optimized for the human voice – is undeniably clearer and crisper.

### EXTERNAL D-SUB 15-PIN INTERFACE

A D-sub 15-pin terminal enables the simple connection of various types of external equipment. It can be used for Ignition sense, External Switch, Horn Alert, and External Mic, among others. A Molex interface is also available with the optional KCT-60M cable.

### HIGH OUTPUT

TX output can be set (by FPU) to 5, 25, or 50 watts (45 watts for UHF).

### 10 PROGRAMMABLE FUNCTION KEYS

The programmable function keys can be assigned a variety of functions to suit different applications and thus maximize convenience.

### STATUS MESSAGES

Status messages are displayed clearly thanks to the large LCD with adjustable brightness. It is also possible to operate an external device (via AUX output) – such as a gate or an alarm – on receipt of a status ID.

### MULTIPLE SIGNALING

#### ■ QT/DQT/DTMF

Encoder/decoder function uses QT/DQT to segregate talk groups, so users only hear calls from their own group. DTMF PTT ID is included for dispatch operations or for a simple remote control application.

#### ■ FleetSync® PTT ID, SelCall & Status

Utilizing Kenwood's FleetSync® signaling protocol, the TK-7360/8360 has PTT ID (ANI: automatic number identification) and Selective Calling capabilities for managed dispatch operations. Programmed Status (by FPU) can also be sent.

#### ■ 2-tone (encode/decode)

The 2-tone signaling format is provided for use with the most common radio systems.

#### ■ MDC-1200 signaling

Built-in MDC signaling added with an LCD display mean that the following features are available:

- PTT ID Encode/Decode
- Emergency Encode/Decode
- Stun/Revive Decode
- Radio Check Decode

#### ■ Emergency alert

For hazardous/hostile duty environments, a PF key can be programmed for emergency use to alert the dispatcher or other group members via DTMF, FleetSync® or MDC-1200 signaling.

### PROGRAMMABLE BLUE LED

The blue LED indicator can be customized to provide useful status information. For example, it can be used in combination with the orange LED for Selective Call differentiation.

### GPS FEATURE

Connected to an external GPS receiver, the TK-7360/8360 can transmit accurate vehicle location data to the central base station for fleet management purposes. Designated scrambler and GPS modules can be installed internally.

### VOICE GUIDE & STORAGE OPTION (VGS-1)

Audible announcement is provided by the optional VGS-1 unit, which also provides storage for GPS data as well as voice recording/playback.

### OTHER FEATURES

- Multiple Scan Functions, including Priority Scan
- Voting (automatic repeater search & selection)
- Independent Setting Per Channel (compander, scrambler)
- BCL (Busy Channel Lockout)
- Talk Around
- Horn Alert Function
- Companded Audio (narrow/wide)
- 3-color LED (red, orange, green)
- Password Protection
- Time-out Timer
- Programmable Voice Inversion Scrambler\*1
- Minimum Volume Setting (by FPU)
- Operator Selectable Tone Settings
- Embedded Message
- 8 Programmable Accessory Ports (for external control)
- Scan Del/Add Function
- Kenwood ESN (Electronic Serial Number)
- Radio Stun
- Adjustable Microphone Gain (FPU only): High/Normal/Low
- Microsoft Windows® PC Programming & Tuning

\*1 This function cannot be used in certain countries. Please contact your Kenwood dealer for further information.

# Options

■ **KMC-35**  
Microphone

■ **KMC-9C**  
Desktop Microphone

■ **KLF-2**  
Line Filter

■ **KMC-36**  
Keypad Microphone

■ **KES-3**  
External Speaker

■ **KCT-18**  
Ignition Sense Cable  
(requires KCT-60 option)

■ **KMC-30**  
Microphone

■ **KES-5**  
External Speaker

■ **KCT-36**  
3m Extension Cable  
(for KCT-60)

■ **KMC-32**  
16-key Keypad  
Microphone

■ **KMB-10**  
Key Lock Adapter

■ **KCT-60**  
Connection Cable

■ **VGS-1**  
Voice Guide & Storage Unit  
(uses 26p connector)

All accessories and options may not be available in all markets. Contact an authorized Kenwood dealer for details and complete list of all accessories and options.

# Specifications

	TK-7360	TK-7360H	TK-8360	TK-8360H
<b>GENERAL</b>				
Frequency Range	136~174 MHz		450~520 MHz	
Type 1	-		400~470 MHz	
Type 2	-		-	
Number of Channels/Zones	128 / 128		128 / 128	
Channel Spacing	25 kHz / 12.5 kHz		25 kHz / 12.5 kHz	
Wide / Narrow	25 kHz / 12.5 kHz		25 kHz / 12.5 kHz	
Operating Voltage	13.6 V DC±15 %		13.6 V DC±15 %	
Current Drain				
Standby	0.4 A	0.4 A	0.4 A	0.4 A
Receive	1.0 A	1.0 A	1.0 A	1.0 A
Transmit (M/H)	8.0 A	14.0 A	8.0 A	14.0 A
Operating Temperature Range	-30 °C ~ +60 °C		-30 °C ~ +60 °C	
Frequency Stability	±2.5 ppm (-30 °C ~ +60 °C)		±2.5 ppm (-30 °C ~ +60 °C)	
Antenna Impedance	50 Ω		50 Ω	
Dimensions (W x H x D), Projections not included	160 mm x 43 mm x 136 mm		160 mm x 43 mm x 136 mm	
Weight (net)	2.0 kg		2.0 kg

## International Protection Standard

**Dust & Water Protection** IP54\*1

\*1: Necessary conditions are: (1) KMC-35/36 microphone is connected; (2) cap is installed on speaker connector; (3) cover is installed on D-sub 15-pin connector; and (4) neither KCT cable nor SP cable is connected.

## Listen to the Future

Kenwood has always connected with people through sound. Now we want to expand the world of sound in ways that only Kenwood can, listening to our customers and to the pulse of the coming age as we head toward a future of shared discovery, inspiration and enjoyment.
